Microsoft Office

## EDUCATION

### College – Bachelor's in Advancing Computer Science

University of Advancing Technology | Tempe, AZ | Jan 2023

- Computer Science, Business & Marketing, Programming

**Certificates – <https://www.freecodecamp.org/johnbrandonjackson>**

### General Education Diploma

## RELEVANT COURSEWORK

- ❖ **CompTIA 901 & 902**
- ❖ **CompTIA NETWORK +**
- ❖ **CompTIA SECURITY +**
- ❖ **Ethical Hacking Training**

## EXPERIENCE

### Rooting & Unlocking Phones

- ❖ I used the programs chimera tools, odin, and apk files to flash firmware and Root and carrier unlock android phones and even installed custom roms like Cynogenmod
- ❖ I repaired screens on iphones and jailbroke the firmware installing cydia to extend the capabilities of the phones hardware and firmware.

### Repairing Computers

- ❖ I had clients that I fixed computers for at times. I would do factory resets Data wipes and OS installations like Windows, Mac, or Linux, even Android Devices. I would Install programs and Apks, change the settings to make everything more secure, and set up email accounts for clients too.

### Hacking Game Consoles

- ❖ Installed Custom Firmware, YAWM, USBLoader, Linux For Wii
- ❖ Installed CFW on PSP, PSVita, and PS3 CHICKHEN and 3.60-C PRO
- ❖ Installed coolrunner chip into xbox360 installed freestyle360 menu dashboard

### Hosting Websites on Servers in the Cloud

- ❖ I use websites and services like Linode, Github Pages, Digital Ocean, Domains.com and others  
To host websites securely. I even use Apache Web Server on Linux or Windows Sometimes for fun.

### Building Personal Computers

- ❖ I build personal computers from parts all the time. I understand everything from DDR2 to DDR4 and I know about form factors, CPUs, GPUs, RAM, Power Supplies Solid State Drives. Hard Disk Drives, Components & all kinds of neat software. I stay up to date on all the latest parts so I have high-end performance always.
